## PROFIL

Full-Stack Developer specialized in Python and JavaScript, with hands-on experience in building AI-powered web applications, SaaS platforms, and scalable APIs using FastAPI, the MERN stack, and modern frontend frameworks. Strong knowledge of databases, DevOps tools, and collaborative development practices. Passionate about solving real-world problems through efficient and elegant solutions.

## ACADEMIC EDUCATION

**Higher Institute of Technological Studies,**  
*Bachelor's Degree in Information Technology*

2023 – 2026 | zaghouan, Tunisie

## SKILLS

### Langages de programmation :

JavaScript, Python , Java (bases).

### Développement web (Front-end) :

Bootstrap, tailwind ,React ,Next.js

### Développement back-end :

Node.js, Express.js, FastAPI

### DevOps & Conteneurisation :

Docker, Git, GitHub, Kubernetes (bases)

### Bases de Données

SQL , MongoDB, PostgreSQL

### Other

REST APIs, OpenAPI, Pandas

## PROJETS

### Voxora AI – AI Content Creation Platform

- Developed and delivered an AI-powered content creation platform for a client.
- Built a solution that helps users generate scripts, convert speech to text, and create realistic AI voice-overs.
- Integrated modern AI services for text generation, speech recognition, and voice synthesis.
- Designed a responsive and user-friendly interface for smooth content creation workflows.
- Focused on performance, usability, and scalable architecture.
- Managed project delivery, customization, and client requirements successfully.

### SkillPath – AI-Powered Learning Platform, (PFE Project)

- Collaborated with a teammate to develop an intelligent e-learning platform that helps users discover personalized learning paths based on their skills and goals.
- Built the platform using **React**, **tailwindCSS**, **MongoDB**, and **FastAPI**.
- Integrated **Gemini API** to generate AI-powered personalized learning paths, recommendations, and smart assistance features.

- Implemented secure authentication, user dashboards, progress tracking, and responsive UI design.
- Designed and consumed REST APIs with OpenAPI-based documentation.
- Used **Git**, **GitHub**, and **Docker** for version control, collaboration, and deployment workflow.

#### **MernStore**, *E-commerce Website*

- Developed a full e-commerce application using the MERN stack (MongoDB, Express, React, Node.js).
- Implemented key features such as authentication, product management, shopping cart functionality, and a responsive user interface.
- Used Git and Docker for code management and deployment.

#### **EMS**, *Employee Management System*

01/2025 – 02/2025

- Developed an employee management application using the MERN stack (MongoDB, Express, React, Node.js) and Bootstrap for the design.
- Implemented core features such as adding, updating, deleting, and searching for employees.
- Designed a clean and responsive user interface with front-end and back-end integration.

### CERTIFICATS

---

- Build a free website with WordPress [🔗](#)
- Git and GitHub [🔗](#)
- Python Programmer Bootcamp [🔗](#)

### LANGUAGES

---

|         |           |        |           |
|---------|-----------|--------|-----------|
| Arabic  | ● ● ● ● ● | French | ● ● ● ● ● |
| English | ● ● ● ● ● |        |           |

### PROFESSIONAL EXPERIENCE

---

#### **Freelance Developer – Remote / Team Collaboration,** *Developer*

07/2025 – 10/2025 | tunis

- Worked with a freelance group on tasks for large-scale projects and SaaS platforms.
- Contributed to frontend and backend development based on project requirements.
- Built and maintained features using modern web technologies such as React, Node.js, FastAPI, and MongoDB.
- Collaborated with developers, followed deadlines, and delivered assigned tasks efficiently.
- Participated in debugging, API integration, testing, and performance improvements.
- Adapted quickly to different client needs and project environments.

#### **Web Development Intern — Karriery Dev**

02/2025 – 01/2025

- Participated in the development of web applications within a team using the MERN stack (MongoDB, Express, React, Node.js).
- Observed and understood the complete development lifecycle: design, implementation, testing, and deployment.
- Performed tasks related to API integration and communication between front-end and back-end interfaces.
- Became familiar with collaborative development best practices.

**Observer Intern — Poste Tunisienne**

- Observation internship focused on web technologies and internal IT systems.
- Completed small tasks related to the management and updating of internal websites.
- Observed the workflow of technical teams as well as maintenance and documentation processes.
